

VOTE REFORM UK

Sharon Collings

Leigh Park Central and West Leigh

Thursday 2nd May 2024

I have lived in Havant for over 30 years. When I moved here in 1992, Havant had been the hub of manufacturing with IBM, Kenwood, Goodmans, Colt, Wyeth and others offering employment and opportunities for many of us.

The Meridian Centre had not long been built, the cinema closed to be replaced with homes and over the years we've lost many pubs and great shops.

Leigh Park has an amazing history, the Oak trees in Wakeford's Copse were planted in around 1800

to help replace those felled for shipbuilding and named after George Wakeford, an estate tenant.

Havant Thicket is noted as far back as the 11th century, now being torn apart for the reservoir with intentions to mix 'recycled water' with spring water. Humans are creatures of habit and don't like change so this 'Water for Life' project is a big deal to us.

Change is inevitable, but changes shouldn't be without proper local consultation and representation. The service we receive from our Council should match our expectation for quality, value for money and integrity. I'm not convinced we always get this and suspect you may feel the same.

I'm proudly standing for Reform UK on Thursday, May the 2nd to be your voice. The council has had a heavy Tory influence for too long and it just feels like this ward gets left behind.

Not voting means you'll have more of the same and I doubt anyone wants that.

REFORM UK - PUTTING LOCAL PEOPLE FIRST

Reasons to vote Reform UK

This is a local election about local issues but much of what happens locally is determined by national policies.

You may have already received a letter from Reform UK's John Perry who will be standing in the General Election for Havant.

Our supporters have walked hundreds of miles hand delivering letters and flyers to residents throughout the Borough, their dedication is second to none - determined to see Reform UK take the reins and change politics for good

• **Work and Retirement**

- ✓ Raising the Income Tax start point to £20,000.
- ✓ Scrap VAT on energy bills, and cut Fuel Duty by 20p/litre.
